KEKUHAUPIO R. AKANA  
DEPUTY CHIEF OF POLICE

November 1, 2005

Dr. Jacob Liberman  
133 Ka Drive  
Kula, Maui, Hawaii 96790

Dear Dr. Liberman:

Thank you for bringing the EYEPORTR vision training system to the attention of the Maui Police Department. The pilot study you conducted on our recruits demonstrated that after exercising their eyes for just three weeks, they were able to significantly improve their visual performance. This allowed them to respond faster, more accurately, remember more of what they had seen, and improve their marksmanship.

These findings indicate that vision training can increase police officers' performance and safety especially if they are able to respond to dangerous situations faster and more accurately. It is my hope that this study will open the door to incorporating this technology into future police recruit training programs nationwide.

Sincerely,

  
THOMAS M. PHILLIPS  
Chief of Police
